

Sinclair Broadcasting has the right to determine its own programming, but to force affiliates to air a blatantly partisan 90-minute long pander to one political party over another is an abuse of the airwaves which belong to us all. I would be just as upset if Michael Moore's Fahrenheit 9/11 received such an airing. This kind of abuse of the airwaves for the obvious goal of benefitting one side of an election has nothing to do with free speech and everything to do with control. Please do the right thing and stop this slide into an America none of us will soon recognize.
